

# SMAW250

## INVERTER WELDING MACHINE

| SPECIFICATION                        | SMAW250                             |
|--------------------------------------|-------------------------------------|
| Rated Input Voltage (V)              | : AC240±15 / AC415±15               |
| Phase (PH) / Frequency (HZ)          | : Single/ Three/ 50HZ               |
| Rated Input Capacity (KVA)           | : 11                                |
| Rated Input Current (A)              | : 15 / 41                           |
| Output No Load Voltage               | : 68                                |
| Current Adjust Range (A)             | Single: 30 - 220<br>Three: 30 - 250 |
| Rated Output Voltage (V)             | : 30                                |
| 25°C, Duty Cycle Output              | : 60%                               |
| Efficiency (%)                       | : 85%                               |
| Power Factor                         | : 0.93                              |
| Applicable Welding Rod Diameter (mm) | : 1.6 - 4.0                         |
| Protection Grade                     | : IP21                              |
| Net Weight (kg)                      | : 5                                 |
| Packing Dimension (mm)               | : 325 x 172 x 320                   |
| Warranty Period                      | : 12months                          |
